Professional Summary

Computer Engineering graduate with hands-on experience in **Java, Spring Boot, REST APIs, MySQL, Hibernate, and JPA**, gained through internship and project development. Experienced in building **CRUD-based applications, RESTful microservices, secure APIs, and database-driven applications** using layered architecture and Spring Security. Strong foundation in **OOP, Data Structures & Algorithms, and backend development**, with practical experience using Git, Maven, and Postman. Passionate about developing scalable backend solutions and continuously improving software development skills.

Academics

S.B.Patil College Of Engineering **Nov 2022 – Jul 2026**
B.E in Computer Engineering CGPA: 6.91/10 *Savitribai Phule Pune University*

Experience

Java Full Stack Intern **May 2026 –Present**
Digital Medha — Hyderabad, India

- Develop and debug CRUD-based, microservices-style web applications using Core Java, JDBC, Servlets, Hibernate, and Spring Boot with a MySQL backend.
- Built and tested RESTful APIs and microservices using Spring Boot and validated APIs using Postman.
- Applied OOP, MVC, and layered architecture to build maintainable and loosely coupled application components.

AWS Intern **Dec 2024 – Jan 2025**
Jalgi Technologies Pvt. Ltd. — Pune, India

- Worked hands-on with AWS EC2, S3, and IAM for application deployment and cloud storage management.
- Gained practical experience in cloud infrastructure setup, instance configuration, and deployment workflows.
- Applied cloud security fundamentals and IAM policies in a real infrastructure environment.

Projects

Expense Tracker with AI Financial Insights | *Java,Spring Boot, Spring Security,Hibernate,JPA,MySQL,React.js,Gemini AI* **2026**

- Developed a secure, full-stack Expense Tracker application with a Spring Boot backend and a React.js frontend for managing personal expenses.
- Implemented JWT-based authentication and authorization using Spring Security for secure user login and protected API access.
- Integrated Google Gemini AI to generate personalized financial insights and budgeting recommendations.
- Used Hibernate/JPA with MySQL for efficient database management; tested APIs with Postman and implemented exception handling and input validation.

Batch Data Service — Spring Boot Microservice | *Spring Boot, MySql, Postman* **2026**

- Built a standalone Spring Boot REST microservice using layered architecture (Controller, Service, Repository) for maintainable and independently deployable code.
- Implemented CRUD operations along with custom search, update, and delete endpoints, validated using Postman.
- Integrated MySQL for persistent data storage and efficient database operations.

Technical Skills

Languages: Java, Python(basics), JavaScript, SQL, HTML5, CSS
Frameworks / Architecture: Spring Boot, Spring MVC, Hibernate, JPA, React.js, Microservices Architecture, RESTful APIs
Core Concepts: Data Structures & Algorithms, OOP, Microservices, CRUD Operations, Exception Handling
Tools: Git, GitHub, Maven, IntelliJ IDEA, VS Code, Eclipse IDE
Areas of Interest: Java Backend Development, Spring Boot & RESTful API Development, Software Development & Problem Solving
Soft Skills: Communication, Leadership, Problem-Solving, Teamwork, Adaptability, Time Management

Leadership

Project Lead –Bot Detection Using Mouse Dynamics **2025 – 2026**
Personal / Academic Projects

- Led the development of an AI-based bot detection system using mouse-movement behavioral biometrics to distinguish human users from automated bots.
- Managed the project lifecycle including data preprocessing, feature engineering, model development, and performance evaluation.
- Developed a Flask-based web application to integrate the trained machine learning model and provide real-time bot detection predictions.

Courses and Certifications

- **Jalgi Technologies Pvt. Ltd:** AWS Cloud Internship Completion Certificate **Jan 2025**
- **MedhEdu Tech:** Java Full-Stack Course Completion Certificate **Jul 2026**
- Solved 150+ Data Structures Algorithms problems on LeetCode and GeeksforGeeks.
